This bulletin is intended to give guidance on acceptance of aircraft for initial issuance of Certificate of Airworthiness (C of A).

Yemen Civil Aviation Law No. 12 and Civil Aviation Requirements Part V, Chapter 1, Section 3 prescribes the Acceptance / Validation criteria for Type Certification.

In view of the above, CAMA accepts USA Federal Aviation Regulations (FARs), Canadian Aviation Regulations (CARs) and EASA Certification Specifications (CS) as Airworthiness Codes for Type Certification / Validation bases and further acceptance of aircraft for initial issuance of Certificate of Airworthiness.

This applies to all aircraft for which a Certificate of Airworthiness is required.

We fully expect the adherence to this policy, which will help organizations to establish proper Initiation in accepting aircraft from foreign countries.

AHMED MAQLEH

ASSISTANT DEPUTY CHAIRMAN FOR AVIATION SAFETY
